

Exploring SQL Server 2016: Intermediate

Course Overview

This course will teach students about security and availability, SSIS, SSAS and SSRS, and advanced integration.

Chapter 01 - Security and Availability

1h 31m

Topic A: Row Level Security - Part 1
Row Level Security - Part 2
Row Level Security - Part 3
Topic B: Always Encrypted - Part 1
Always Encrypted - Part 2
Always Encrypted - Part 3
Topic C: Data Masking - Part 1
Data Masking - Part 2
Data Masking - Part 3
Topic D: Clusters and Replication - Part 1
Clusters and Replication - Part 2
Clusters and Replication - Part 3
Topic E: Stretch Database - Part 1
Stretch Database - Part 2
Stretch Database - Part 3

Chapter 02 - SSIS

58m

Topic A: SSIS - Part 1
SSIS - Part 2
SSIS - Part 3
Topic B: SSIS Continued - Part 1
SSIS Continued - Part 2
SSIS Continued - Part 3

Chapter 03 - SSAS and SSRS

1h 40m

Topic A: SSAS - Part 1
SSAS - Part 2
SSAS - Part 3
Topic B: SSAS Continued - Part 1
SSAS Continued - Part 2
SSAS Continued - Part 3
Topic C: SSRS - Part 1
SSRS - Part 2
SSRS - Part 3

Chapter 04 - Advanced Integration

1h 1m

Topic A: R Language - Part 1

R Language - Part 2

R Language - Part 3

Topic B: Master Data Services - Part 1

Master Data Services - Part 2

Master Data Services - Part 3

Total Duration: 5h 10m
