

Starting with Angular 7

Course Overview

This course will introduce students to Angular 7 by teaching them about the Angular architecture, working with components, creating a routing project, creating a services project, modules defined, integrating the module, directives, and types of forms.

<u>Chapter 01 - Course Introduction</u>	7m
Course Introduction	
What is Angular?	
How This Course Works	
The Course Outline	
<u>Chapter 02 - Angular Architecture</u>	34m
Section Introduction	
What Do We Have Here?	
Angular Architecture	
From Scaffold to Application	
Section Summary	
<u>Chapter 03 - Working with Components</u>	16m
Section Introduction	
Create a Components Project	
Working with Components	
Section Summary	
<u>Chapter 04 - Create a Routing Project</u>	17m
Section Introduction	
Create a Routing Project	
Let's Do Some Routing	
Section Summary	
<u>Chapter 05 - Create a Services Project</u>	39m
Section Introduction	
Create a Services Project	
Start Building Services	
Wiring Services Up	
Accessing Services	
Service-Enabled Components	
Finalizing our Services Implementation	
Section Summary	

<u>Chapter 06 - Modules Defined</u>	28m
Section Introduction	
Modules Defined	
Refactoring for Modules	
Finish our Modules Refactor	
Section Summary	
<u>Chapter 07 - Integrate the Module</u>	21m
Section Introduction	
Integrate the Module	
Style our Components	
Section Summary	
<u>Chapter 08 - Directives</u>	15m
Section Introduction	
Directives	
Pipes	
Section Summary	
<u>Chapter 09 - Types of Forms</u>	26m
Section Introduction	
Types of Forms	
The Angular Forms Module	
Implementing Reactive Forms	
Styling Reactive Forms	
Section Summary	
<u>Chapter 10 - Course Conclusion</u>	5m
Course Conclusion	
What Now?	
Final Comments	

Total Duration: 3h 28m
